For Serial No. 10/724,827,

I have a claim that recites a polynucleotide obtained by PCR using primers of SEQ ID NO:3 and SEQ ID NO: 4.

Can the nucleic acid commercial, PGPub, issued, and pending databases be searched for this polynucleotide obtained by PCR using primers of SEQ ID NO:3 and SEQ ID NO: 4? I would only need hits that have both SEQ ID NO:3 and SEQ ID NO: 4.

If this search is possible, please advise on how to request this search. Thank you.
